

## Laurens Laboratory: of Edible Wonders

Cooking is like alchemy, luckily with this cook book you can avoid the blowing up the kitchen part of the experimentation process. Most of these recipes are simple. I like things that are fast or take little effort since I am busy working all the time, probably just like everyone reading this. This cook book can be used by anyone, but was made specifically for my fellow food restricted foodies out there, people who are on a candida diet or have multiple food allergies and sensitivities causing them to live a life in the boring food zone. I feel your pain and I want to help! Healthy food does not have to be boring, in fact with a little imagination you can create things that will make you wonder how you ever ate any differently. In this cookbook you will find a variety of simple, easy and delicious drinks, desserts, breakfasts, lunches, dinners, snacks and sauces. The recipes in this cook book are: Gluten free 99% grain free Stevia sweetened Easily converted to vegetarian and vegan Low in lactose or lactose free Food is an adventure! It is part of the experience of life. We are meant to enjoy life and that includes our food!
