

Brand Hijack: Marketing without Marketing

brand hijack (br?and h? -j?ak): consumer takeover (synonym).The consumers act of commandeering a brand from the marketing professionals and driving its evolution. Out of nowhere, a brand like Red Bull, The Blair Witch Project, or even the Howard Dean campaign takes off with little or no conventional marketing. How do these accidents really happen, and why do they ultimately succeed or fail? Welcome to marketing without marketing: the emergence of the hijacked brand. Dont let the all- too-clever subtitle fool you. Far from representing the absence of marketing, this book describes the most complex sort of marketing possible, as well as the least understood. Brand Hijack offers a practical how-to guide to marketing that finally engages the marketplace. It presents an alternative to conventional marketing wisdom, one that addresses such industry crises as media saturation, consumer evolution, and the erosion of image marketing.
