HAVE YOUR TAIL WAGGING WITH JOY BY READING THE ANIMAL WITHIN US, A PERSONAL TRAINER FOR YOUR ANIMAL SELF. This is a well written and researched book. Jane Goodall, Ph.D. We get books sent to us on a daily basis, but none have fascinated me as much...a must read for any animal lover. Grace Neufeld, Publisher, The Pet Companion. According to Dr. Glass, The very core of our humanity, from our religions, our wars, teenage rebellion, the battle between the sexes, ambitions, and even our love of sports is a direct mimic of behavior patterns in animals. Making friends with the animal within each of us and learning to tame our own inner beast is critical to finding psychological harmony in our lives. Dr. Glass's background leaves him uniquely qualified to make those observations. After nearly 20 years of research as a psychologist and neuroscientist and then fifteen years as an entrepreneur watching the human animal in action in the business world, his insights are a synthesis of both academic and real world experiences. THE ANIMAL WITHIN US is an enlightening and entertaining glimpse into the human mind. It provides valuable lessons we can learn about our own lives by understanding patterns of behavior passed on to us from our animal kin and gives us answers to significant questions about why we think, feel and act the way we do.
