

Eyes of the Watchers (Codex Grigori Book 1)

In ages past, Enoch wrote about the Fall of the Watchers, a group of Angels that were once charged with observing humanity but who grew too fond of the mortals in their care. Their Fall spelled disaster for humanity and brought about the great flood. Today, a young woman is about to find out that there are things in this world that cannot be explained, dark things that would see it burn and the only one that can help her has already failed in his duty once before.
