

Fifty Readings in Philosophy

Fifty Readings in Philosophy is a flexible and affordable collection of classic and contemporary primary sources in philosophy. The readings cover all the main topics of Western philosophy, each one carefully edited to be long enough to present a self-contained argument but not so lengthy that students lose track of the main point. Introductions and explanatory notes make the readings accessible to students. All these features have made this book a proven pedagogical success and a best-selling reader in introductory philosophy.
