

God, Jesus, and the Bible

God, Jesus, and the Bible is a comprehensive history of the origins and development of the Jewish and Christian religions. It traces the origin of the god concept, the evolution of monotheism, the development of Judaism through the first century CE, and the evolution of Christianity. God, Jesus, and the Bible utilizes the methodology of history, in which, as in every scientific discipline, conclusions must conform to the evidence, not the methodology of theology, in which evidence is manipulated to whatever degree is necessary in order to make it conform to predetermined conclusions. God, Jesus, and the Bible falsifies religion as totally and permanently as the first photographs of the Martian surface falsified the canals myth.
