

What Does One Say When Asked - Are You Ready to Die?

Here is a most personal sharing of a journey met with the winds of some very significant challenges - some of which directly prompt an answer to the question - noted on the cover of this book. What underscores it even more directly is one very specific occasion when it was, in fact, asked directly - of the author - by his doctor while sitting in the doctors office with the authors wife sitting at his side! It is also a very sensitive and true in-depth look at his answer as well as a journey inside of the very private aspect of a lifes voyage and of engagements with many of the important people who had an impact along the way! There is no holding back! The author opens both his most personal memories - and his heart - in taking you through episode after episode of challenge and of what went into meeting each and every one! They are true! This clearly is a journal that unmistakably takes you deep down inside the authors inner self - each and every step along the way! He also opens the door totally wide on the source of perseverance, trust, optimism and why he definitely feels the way he does about it! It is true! And, it is filled with heartwarming hope and perseverance - and - their very roots in the face of major challenges!
