

Crisp: Surviving Information Overload: How to Find, Filter, and Focus on Whats Important (50-Minute Book)

Newspapers, books, magazines, and the Internet tell us what we want to know when we want to know it. Reports, memos, e-mails, and voice mail help us transmit and receive information quickly and easily. With so much information coming at us constantly, its no wonder many of us are living with information anxiety. Odette Pollar, productivity specialist and author of Crisp's best-selling Organizing Your Work Space, empowers readers to dig out of the avalanche of information they are bombarded with daily and to take back control of their time in her new book, Surviving Information Overload.
