

The Gift of Fear: And Other Survival Signals that Protect Us from Violence

Fear can save your life. It directs you to avoid that stranger, to leave the room, to call for help. The intuitive message of fear, together with rational principles, can help you to predict and thereby avoid personal violence. In this program Gavin de Becker, Americas leading expert on predicting violent behavior, demystifies the apparently random and unpredictable nature of violence and shows you how interpersonal violence can be detected and derailed. De Beckers clients include celebrities, corporations, and political organizations, and he serves as an adviser to the CIA and the U.S. Supreme Court.
