

The Other Side of Wild

The Other Side of Wild Nelson Mandela found himself on the wild side of the law in his long walk to freedom. This ebook is dedicated to all the white people who found themselves on the other side of wild in our struggle for a free and democratic South Africa. First experiences of a boy growing on a farm to a lawyer in the city and the comedy of errors to emancipation. An inspiring story of a white man getting married to an Asian lady in the times of apartheid, the battles they fought. The adventures of new business, escort agency and hunting trips. This story includes all adventures in the savannah bushveld and African safari. The young lawyer leaves his practice to fulfill his dream of a game farm, construction of chalets, swimmingpool, coldroom, shooting range and hunting safari. The school of demands by hunters and clients on hunting trips, leading to alcohol abuse. The family business is complicated and the plot thickens with his marriage to a lady of colour after a long list of troubled relationships, and homicide. The lesson of life when his trust in his parents is broken during and as result of apartheid, the greed of other family members and crimes committed in the process of their desires. The mother-in-law with a difference of a real mother, the acceptance of life and peace of mind. The last dance with the Devil and conclusion. African tradition and legal advice.
