

The Parenting Plan Handbook: A Comprehensive Guide to Skillfully Building a Strong, Child-Centered Parenting Plan

We know kids do best when parents understand their children's deep desire to stay connected to and be cared for by both of them. A skillful parenting plan describes the structure, predictability and rhythm that ensure both parents can emerge from the uncertainty of separation/divorce into stable two-home family life. The agreements and guidelines set-out in your parenting plan establish clarity about your responsibilities to one another, specify essential co-parenting tasks, and minimize unnecessary conflict. (This workbook has four hours of companion coaching seminars to assist you in your parenting planning process at theparentingplanhandbook.com.) Children thrive when confidence and security are present and parents think through parenting plan decisions, come to agreements, and implement changes to their family in a mature, non-adversarial manner. Come learn with us. We'll share with you our 25 plus years of experience working with families facing transitions as they emerge into bright futures with well-adjusted children. The C-Words of a strong, child-centered parenting plan: Collaboration, Communication, Conflict-management, Child-centered, Co-Parenting
